Fastpitch Pitching Mat

PowerLine™ Club K® Fastpitch Mat

The PowerLine™ Club K® Fastpitch mat is the ultimate training tool for athletes learning fastpitch softball pitching. Designed to withstand extremely heavy training schedules, the PowerLine™ Club K® mat is ideal for indoor facilities and gyms, and is also intended for outdoor use.

The PowerLine™ Club K® Fastpitch mat features:

- Unique triple guideline system. The two outside lines comply with association regulations. The center line is the actual "power line" or line of force which indicates optimal foot placement and balance during the pitching motion.
- Permanent lines, which will not rub off. Proper use of these lines will actually promote an increase in the power and speed of the pitch.
- 1/2" thick pitching rubber that replicates the actual conditions on the pitcher's mound.
- Softer pitching surface that protects leg muscles and joints from continuous stress.
- Non-marking vinyl base designed to protect gym floors from damage.

Size: 3' x 9'
Color: Black with white lines
Thickness: 3/16" thick
Weight: 45 lbs.

Warranty: One year warranty against manufacturer's defects.
